Education

Télécom Paris, Palaiseau, France Sept. 2024 – Present
MSc in Engineering (Diplôme d'Ingénieur) Expected 2027

- Specialization tracks: Advanced Imaging, Computer Vision, and Applied Mathematics for Probability.
- Core coursework: M1-level training in Probability and statistical modeling.

Lycée Clemenceau, Nantes, France Sept. 2022 – June 2024
Classes Préparatoires Mathematics, Physics, Computer Science

- Intensive two-year STEM program preparing for competitive entry examinations to French Engineering Grandes Écoles.
- Specialization in Mathematics, Physics, and Computer Science.

Lycée Jean-Paul II, Saint-Grégoire, France July 2022
French Baccalauréat

- Graduated with Highest Honors (*Mention Très Bien*).
- Majors: Mathematics and Physics-Chemistry.

Professional Experience

Secure-IC, Cesson-Sévigné, France July 2025 – Aug. 2025
Strategic Project Engineer Intern

- Implemented Intrusion Detection Systems (IDS) models on Controller Area Network (CAN) buses using PyTorch.
- Deployed diverse AI architectures, including LSTM, Autoencoders, BERT, CNN, and Adversarial Networks.
- Successfully integrated the trained IDS onto an Alstef Automated Guided Vehicle (AGV) for real-time security.
- Operated within an Agile Scrum methodology framework to meet sprint milestones.

Carrefour, La Baule, France July 2022 – Aug. 2022
General Assistant

- Managed checkout operations, streamlined shelf stocking, and optimized inventory replenishment under high-season demand.

Orange Labs, Cesson-Sévigné, France June 2019
R&D Laboratory Observation Intern

- Analyzed advanced telecommunication infrastructure and assisted researchers in testing prototype environments.

Projects & Performance Achievements

French Robotics Cup Team Competitor

- Engineered autonomous robots utilizing Arduino microcontrollers and sensory modules.
- Implemented real-time game-solving and navigation algorithms in C and OCaml.

Personal AI & Quantitative Development Independent Developer

- Developed an AI-driven tasting assistant utilizing custom NLP modeling for flavor analysis.
- Programmed and backtested an algorithmic trading bot leveraging time-series forecasting models.

Event Management & Leadership Associative Treasurer

- Managed financial budgeting and compliance for the Orchestres du Plateau de Saclay and the Télécom Paris Terroir Fair.
- Co-organized a local Terroir fair (Salon du Terroir), successfully coordinating logistics for over 1,000 visitors.

Athletic & Musical Achievements Performance-Driven

- **Running:** Completed 10k races with a personal best time under 40 minutes (*Sub-40 10k*).

- **Calisthenics:** Mastered advanced bodyweight progressions, including the Full Front Lever.
- **Viola:** Validated 2nd Cycle Conservatory examinations; active member of a symphony orchestra and a rock band.

Technical Skills

- **Programming:** Python (PyTorch, Computer Vision, NumPy, Pandas), OCaml, C, Arduino.
- **Software & Tools:** Git, Microsoft Office, Google Workspace, Cybersecurity log analysis, Database management.
- **Languages:** French (Native), English (C1 - Fluent professional proficiency) , Spanish (B1 - Independent user).
